

EHS POLICY

- To be the exemplar of environmental stewardship, occupational health, and safety in our industry, contributing to the well-being of our workforce, society, and the planet.
- Our mission is to lead the LD Machinocast sector in upholding the highest standards of environmental health and safety. We are committed to fostering a culture of continual improvement, promoting responsible practices, and collaborating with stakeholders to ensure a safe, sustainable, and respected industry.
- We are dedicated to continuously improving our EHS performance. Through ongoing assessments, learning from incidents, and implementing innovative solutions, we will strive for excellence in all aspects of environmental protection and occupational health and safety.
- Our EHS objectives will be established following the SMART (Specific, Measurable, Achievable, Relevant, Time-bound) criteria. They will align with our vision, mission, and the industry's broader goals. Regular monitoring and assessment will be conducted to track progress and identify areas for improvement.
- We recognize the importance of transparent communication and public understanding of our EHS policy. We will engage with relevant stakeholders, including local communities, NGOs, regulators, and customers, to promote awareness, address concerns, and foster a culture of collaboration.
- This EHS policy will be readily available to all relevant interested parties, including employees, contractors, suppliers, customers, regulatory authorities, and the public. It will be published on our official website and communicated through various channels to ensure accessibility and understanding.
